

Environmental Policy

Commitment

Origin Cranes is committed to protecting the environment by conducting our operations in an ecologically sustainable manner. Together with our existing initiatives to preserve the environment and a strong staff commitment, Origin Cranes will seek to comply with all applicable environmental legislation, regulations, and other requirements to ensure the objectives of this policy continue to be met now and into the future.

Origin Cranes is committed to preventing pollution, protecting the environment, promoting the sustainable use of resources, and continually improving the effectiveness of our Environmental Management System in accordance with ISO 14001 requirements.

Objectives

Our environmental objectives include but not limited to:

- A. Developing processes and procedures to identify, prevent and mitigate environmental pollution
- B. Integrating environmental management planning, systems, processes and decision making into all operational activities
- C. Base our Environmental Management System on ISO 14001 Environmental Management System requirements
- D. Efficiently managing our operations in a way that minimises our impact on land, air, waterways and surrounding ecosystems, while promoting the sustainable use and reuse of resources.
- E. Ensuing employees aware of the importance of conducting their activities in an environmentally responsible manner
- F. Providing appropriate resources to establish and maintain the environmental management system and achieve the above environmental objectives / performance targets
- G. Periodically reviewing systems and procedures, environmental performances objectives and targets to ensure continual improvements and compliance with legislative and other external requirements
- H. Conduct regular environmental audits and assessments of compliance with company environmental objectives and regulations
- I. Regularly evaluating our environmental impact, implementing effective measures to enhance sustainability, and fostering a culture of environmental responsibility throughout Origin Cranes.
- J. Preventing environmental incidents through the effective management of fuels, oils, chemicals, hazardous substances and waste products.
- K. Promoting waste minimisation, recycling and responsible disposal practices throughout all areas of the business.
- L. Managing fuel, energy and water consumption efficiently and seeking opportunities to reduce resource usage where practicable.
- M. Protecting environmentally sensitive areas and client sites through appropriate planning, risk assessment and environmental controls.
- N. Encouraging employee participation in environmental initiatives and continual improvement opportunities.

- O. Considering environmental impacts when selecting suppliers, contractors, products and services where reasonably practicable.
